OBJECTIVE

I am dedicated to creating sustainable and innovative solutions for managing water resources. My passion for this field stems from the knowledge that water is a precious and foundational resource that impacts all aspects of human life and the environment. In my work, I am dedicated to staying on top of the latest advancements in technology and industry trends to ensure that my clients receive the best possible services. Utilizing advanced modeling software and collaborative approaches, I am able to provide data-driven solutions that are tailored to the unique needs of each project. Collaboration is a critical part of my approach, and I enjoy working closely with stakeholders, including government agencies, NGOs, and local communities, to ensure all voices are heard and needs are addressed.

EXPERIENCE

- |                |  |
|----------------|--|
| 2020 - Present | <ul style="list-style-type: none"><li>• <b>Lecturer</b><br/>Gambella University</li></ul>                            |
| 2017 - 2019    | <ul style="list-style-type: none"><li>• <b>Assistant WASH officer</b><br/>Action for the Needy in Ethiopia</li></ul> |

EDUCATION

- |      |   |
|------|---|
| 2023 | <ul style="list-style-type: none"><li>• <b>Arba Minch University</b><br/>MSc in Hydraulic Engineering<br/>CGPA 3.61/Excellent</li></ul>           |
| 2017 | <ul style="list-style-type: none"><li>• <b>University of Gondar</b><br/>BSc in Hydraulic and Waterc Resources Engineering<br/>CGPA 3.33</li></ul> |

SKILLS

- Expertise in the subject matter
- Effective communication
- Adaptability and flexibility
- Passion for teaching
- Assessment and feedback
- Continued professional development
- Knowledge of WASH principal and practices
- Familiarity with various water and sanitation technologies, such as water treatment methods, sewerage systems, latrine construction, and solid waste management.
